## WHY THIS PAGE EXISTS

## Because Booking Shouldn't Be a Full-Time Job.

AI POWERED

## AI-Powered Language & Grammar Feedback

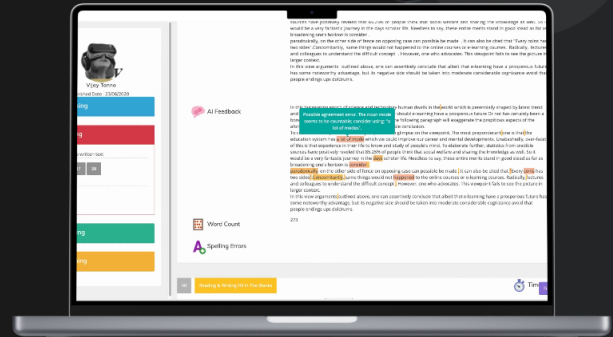

Not just **"wrong."** We tell you **why.**

It's not just about English

Scoring well in PTE isn't just about English — it's about using the **right English**, the **right way**.

Our AI reviews in detail:

- ✓ Grammar mistakes and sentence structure issues
- ✓ Spelling and word-choice errors
- ✓ Areas where clarity and coherence can improve

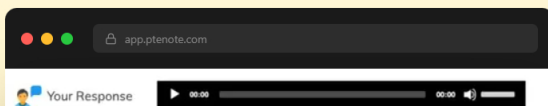

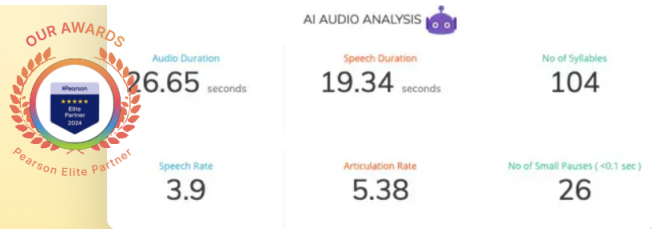

## Fully Transparent AI Scoring

Because **"AI said so"** is not feedback.

Let's be honest.

A lot of AI mock tests throw a score at you and expect you to magically improve. No explanation. No clarity. Just confusion.

PTENOTE doesn't play that game. 🙌

Our AI shows you **what it analyzed**, **how your speech performed**, and **where things went wrong** — so you're not left wondering why you got a 62 instead of a 79.

Think of it as:

Less guessing

More understanding

Actual improvement

🔥 Transparent scores. Real feedback. Zero mystery.
